

WHERE STRENGTH MEETS PROGRESS
TECHNOLOGY INNOVATES THE WORLD

To be clearly recognized as our industry's leading solution provider in maximizing our customer's growth, by understanding their needs, always obtaining the reliable operating nucleus.

Our Vision

We are in business to help our customers grow. Our efforts will focus on fully understanding and exceeding their expectations.

We care every employee's and shareholder's wellbeing.

Our Mission

To provide our employees with a fun, safe, and challenging work experience where everyone has the ability to success
To contribute to the communities and strive to improve the environment everywhere we operate.

GOALS

Comacchio S.P.A.

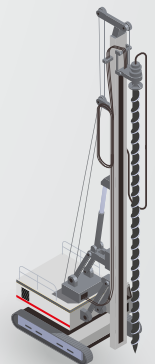

COMACCHIO spa is an Italian company that specializes in the design, manufacturing, and distribution of drilling equipment for various industries. With a history spanning over 40 years, COMACCHIO has established itself as a leading player in the global market.

The company offers a wide range of drilling rigs and accessories that cater to different applications, including geotechnical, environmental, water well, and mineral exploration. Their drilling rigs are known for their reliability, efficiency, and advanced technology, making them suitable for both small and large-scale projects.

COMACCHIO's product portfolio includes hydraulic drilling rigs, multipurpose rigs, crawler-mounted rigs, and rotary drilling rigs. These machines are designed to meet the specific needs of customers, ensuring high performance and productivity in various drilling operations.

In addition to drilling rigs, COMACCHIO also provides a comprehensive range of drilling tools and equipment such as drilling buckets, augers, casings, and drilling accessories. These products are designed to work seamlessly with their drilling rigs, enhancing efficiency and accuracy in drilling operations.

PRODUCTS: Piling, Micro piling, Water Well Drilling, Geotechnical and Exploration Equipment.

CRCHI

imachinery
FOR HEAVY EQUIPMENT & SERVICES

COMPANY PROFILE

CRCHI

China Railway Construction Heavy Industry Corporation Ltd. (CRCHI) is a large and professional equipment manufacturer specialized in developing and producing smart tunneling equipment and high-end railway track system. It has been consecutively listed in China Top 5 Construction Machinery Manufacturer and World Top 50 Construction Machinery Manufacturer.

CRCHI is now a comprehensive solution provider for the underground construction and rail transit industries. It offers full life cycle services tailored to client's needs, which cover design, fabrication, training, on-site service, refurbishment, spare parts supply, etc.

CRCHI has its headquarters and two major industrial parks in Changsha, and sixteen subsidiaries and manufacturing bases scattering in China, such as Zhuzhou, Kunming, Longchang, Urumchi, Baotou. Meanwhile, CRCHI has thirteen overseas branches in Singapore, Russia, Australia, Turkey, India and others.

In the age of globalization, CRCHI aims to be a China-leading and world-class company, with "technology innovates the world and service leads the future" as the corporate philosophy. The company is committed to making great contributions to the world underground and railway construction industries.

PRODUCTS: Tunnel Boring Machines (TBM), Pipe Jacking, Jumbo Drilling Machine and Shotcrete Equipment.

SHANTUI

Shantui Construction Machinery Co., Ltd. is formerly Yantai Machine Factory, which was founded in 1952 and relocated to Jining and renamed to Jining Machine Factory in 1966. In 1980, Jining Machine Factory, Jining General Machinery Factory, and Jining Power Machinery Factory were merge to form Shantui Bulldozer General Factory. Shantui Construction Machinery Co, Ltd. was founded in 1993 and was publicly listed at Shenzhen Stock Exchange in January, 1997 ("Shantui Stock"; code: 000680}. It's one state-owned public listed company and is one subsidiary company of Shandong Heavy IndustryGroup.

PRODUCTS: Earthmoving Machinery Including Bulldozers, Wheel Loaders, Graders, Road Rollers, Forklifts, Mining Dumpers and Excavators, Compactor, Mining Dumpers, Paver Recycling Machine, pipelayer.

JANE00

Shantui Janeoo is the first large-scale backbone enterprise in China to produce concrete mixing and conveying machinery. It enjoys a good reputation, reputation and credibility in the market and customers. Years of technological innovation has accumulated rich design experience and technology development resources, forming a rapid response to the market, promptly tailoring for customers, and providing precise, differentiated, and packaged services.

At present, Shantui Janeoo has more than 176 editions of products in 5 categories, among which the leading products are concrete mixing equipment, concrete conveying equipment, road mixing equipment, dry-mix mortar equipment, resource equipment, and the first domestically launched ship-mounted concrete A large number of new products with high added value, high technology content, and in line with national industrial policies, such as mixing equipment and high-end environmentally friendly concrete mixing equipment.

PRODUCTS: Concrete Machineries (Batching Plants, Concrete Pumps and Concrete Mixers).

ANTENG

Anteng Hydraulic vibratory hammer is well developed piling equipment with a very wide application in driving and extracting sheet piles, casing piles, H beam, pre-casted piles, etc. Anteng Hydraulic vibratory hammer range contains 8 models currently, eccentric moments varies from 27kgm to 200kgm, and centrifugal force varies from 860KN to 4300KN. Other sized vibratory hammers are also available on request. The hammer is equipped with power pack adopting well-known brands of spare parts, such as CAT and Cummins engine, Parker motors, Rexroth pump, FAG bearing, and so on, for ensuring high quality and stable performance.

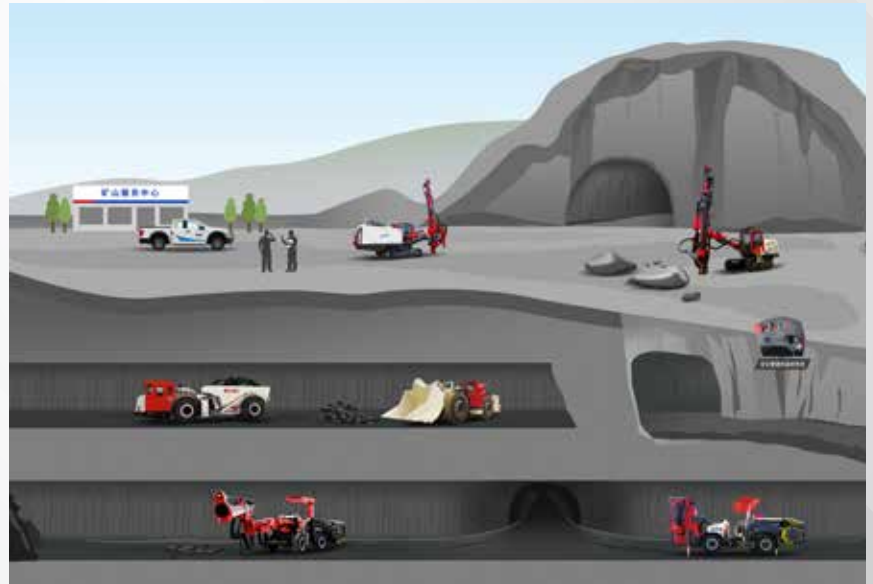

PRODUCTS: Hydraulic Vibratory Hammer, Excavator Vibratory Hammer, Side Grip Vibratory Hammer, Electric Vibro Hammer, Hydraulic Impact Hammer, Hydraulic Pile Breaker, Telescopic Arm, Excavator Auger Drill.

LGMRT

LGMRT, a leading provider of complete solutions for mid-range customers worldwide. With a strong commitment to safety and compliance, LGMRT specializes in surface drill rigs, underground drill equipment, underground loaders, and trucks. LGMRT boasts three flexible design assembly lines, each catering to specific needs: The surface drill rig assembly line enables the production of both top-hammer and down-the-hole drill rigs, covering a hole diameter range of 76mm to 178mm. The underground drill assembly line manufactures development drill rigs and long hole drills. The underground L&H equipment assembly line can achieve mixed-line production of 2 tons to 10 tons of underground loaders and 12 tons to 20 tons of underground articulated mining trucks. To ensure efficient lean manufacturing.

PRODUCTS: Top Hammer Drilling Rigs, Mining Dump Trucks & Heavy-Duty Excavators.

STA

STA has been designing and producing special hydraulic equipment for the construction industry and for the naval industry for more than thirty years. We are also present on the market with a wide range of customized applications and prototypes. Different fields with common guidelines: high quality and high reliability. In the naval sector we are specialized in the production of cargo systems as stern doors, internal ramps and openings to hull for RO-RO and ships. For the construction industry we produce grouting equipment as for injectors, grouting pumps, mixing unit for grouting, jet-grouting, chemical injection and vibroflotation equipment for vibrocompaction and stone columns, power packs.

STA also applies to his equipment a complete range of automation and data logger systems.

PRODUCTS: Stone Column Systems, Grouting Equipment, Grouting Mixers and High-Pressure Pumps.

KELLYWAY

Hunan Kellyway Machinery Co., Ltd founded in 2015, was founded by the main team which is with up to ten years' experience on foundation works and piling machinery. HKM locates in Hunan province which is in the center of China famous for heavy equipment manufacturers. Kellyway is committed to manufacture and supply most reliable and highest cost-performance products. From our experience we have a deep understanding on piling works that the properly chosen drilling tools and drilling teeth will sharply increase our drilling efficiency and save operation cost. Kellyway is working on provide the one stop piling solutions for our domestic and global customers and we are dedicated to be your best partner for your piling works from China.

Products: Kelly Bars Interlocking / Friction, Kelly Swivels, Kelly Terminals, Springs, Locks, Rotary Sleeve Locks, Foundation Drilling tools, Single/Double Wall Casing, Joints & Casing Adaptors, VIBRO Float Kit Bottom and Top Feed, Drilling Teeth and Accessories, Hard Rock Tricone Bits and Single Roller, Hydraulic Spare Parts (Winches, Pumps, Motors, Control Distributors & Gearboxes).

DTH – LUXTOWER

DTH Italian Light Towers with over forty years of experience in the Lighting industry, boasting ISO 9001 certification for its processes. their team of skilled engineers has developed a comprehensive range of mobile lighting towers, which are currently supplied to Italian charterers and exported across Europe, the Middle East, and Africa.

DTH primarily serves rental companies and large construction firms operating in civil and industrial construction, oil and gas, and event organization sectors.

In addition to their innovative lighting towers, they also distribute LED WORKING LIGHTS, offering practical solutions for mobile lighting on construction sites.

Furthermore, they are in the process of developing SECURITY TOWERS, a video surveillance project aimed at enhancing risk management.

PRODUCTS: Diesel, Hybrid, Battery and Solar-Powered Tower Lights and Diesel generators.

SKC

SKC MAKİNA brand is under SKC Engineering Company which established in 2013, is a manufacturer of machinery and equipment and aims to be a leader in its sector. SKC MAKİNA has been serving the design, production, sales and after-sales service areas for the continuously changing and developing customer needs and has made customer satisfaction the principle of priority by using the technologies of its own welded and machined manufacturing, mechanical, hydraulic and electrical automation fields. SKC MAKİNA, whose activities are honest, respectful, humanis-tic and based on high quality principles, will continue to serve our customers.

PRODUCTS: Mud System, Mud Pumps, Bentonite Mixers, Desander and Desilter.

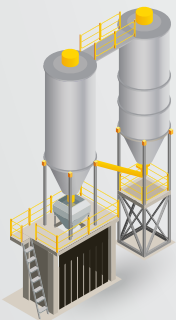

METAX S.P.A.

METAX | The Geotechnical, Drilling and Oilfield Division of CIMA S.p.A has a long and solid experience in the design and construction of high-pressure triplex pumps for jet grouting, mud pumps, mixing and injection plants, mixing plants, storage equipment for the following applications:

- soil consolidation
- tunneling and backfilling
- Oilfield
- Drilling
- directional drilling

PRODUCTS: JET Grouting, Tunneling Backfilling System, Grouting and Soil Mixing.

HENAN CRANE

Henan Mine Cranes Co., Ltd., a distinguished share-holding industry enterprise renowned for its integrated research, manufacturing, and sales of a wide range of high-quality products including electric hoists, winches, various types of cranes (single-beam, double-beam, bridge-type, grab basket, foundry, anti-explosion, European standard overhead crane), and more.

These cranes are designed to meet the various needs of several industries, such as construction, manufacturing, logistics, and more. With their advanced technology and robust construction, these cranes ensure efficient and safe lifting operations.

The products have passed CE SGS TUV BV and CU-TR verification, and factory passed ISO9001-2008 international certification, ISO14001:1996 environmental and ISO28001-2001 quality, health and safety certification.

With a commitment to modern scientific management systems, precision manufacturing, and continuous innovation, Henan Mine Crane Company has established itself as a leader in both domestic and overseas machinery manufacturing industries.

PRODUCTS: RTG, Gantry, Launcher, Jib, Overhead and Port Cranes.

VAN DEN HEUVEL HANDEL & TECHNIEK B.V.

Van den Heuvel designs and builds high-quality machines in the field of pile-driving, hoisting and soil compaction.

We aspire to be the most successful partner in the foundation, earthmoving, demolition, transshipment and road construction sectors.

We only work with reliable brands that are built with a passion for technical innovations

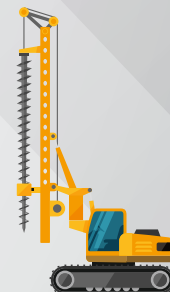

We strive for a long-term cooperation and a high level of customer satisfaction.

This requires constant improvement of business processes and the provision of

Total solutions. We are known for the versatility of our services and the reliability of our services.

of our staff. To achieve our ambitions, we continuously monitor the quality of our products and improve them where necessary.

PRODUCTS: VDH Multipurpose Machine, RDC Machine for Soil Compaction,
VDH Hammers & VDH Pilers.

ROADWAY CONSTRUCTION MACHINERY

Shandong Roadway Construction Machinery Manufacturing Co., Ltd. is located in High-Technology Industrial Development Zone, Jining City, Shandong Province, China. The company covers 100000m². It is a scientific-oriented and modernization enterprise with the right of the import and export. The company is specialized in producing small and medium and special construction machinery used in the area of highway, railway, water conservancy, etc. The products are up to 40 types, 20 types of which have applied for national patent.

PRODUCTS: Compacting Equipment, Concrete Construction Equipment, Canal Construction Equipment, Cutting and Breaking Equipment and Lighting Equipment.

RAVED

RAVEO

Raveo Machinery Inc. is a professional enterprise integrating with research, development, production and sales of mining and construction equipment.

The products they specialize include JAW CRUSHER, IMPACT CRUSHER, CONE CRUSHER, VSI SAND CRUSHER, VIBRATING FEEDER, VIBRATING SCREEN, BELT CONVEYOR, etc.

The official agent in Middle East is ISTC in Jeddah Saudi Arabia We are officially authorized for international trade among over 120 countries and regions.

We have set up branches and agents all over the world such as Philippines, Papua New Guinea, New Zealand, Mexico, Peru, Saudi Arabia, Egypt, Algeria, South Africa, Russia, France, etc.

PRODUCTS: Crushers, crushers accessories and consumables.

SHANGHAI HYDROTECH

Shanghai Hydrotech engineering co., ltd, a member of Raveo Group, is registered in the Shanghai Lingang Free Trade Zone and mainly serves the global market for pile foundation and underground space development.

Shanghai Hydrotech engineering co., ltd. is an enterprise specializing in the supply and maintenance of core components of hydraulic hydromill (trench cutter) equipment in the field of infrastructure construction. The core advantage of the company is to provide core components for hydromill (trench cutter) and special pile drilling products with higher cost-effectiveness and faster delivery speed.

PRODUCTS: Pile Breakers, Spare Parts and Consumables for Foundation Machines and Hydromill Cutter Wheel Equipment & Accessories and cutter head cutting tools.

SHANDONG TIANYOU

Shandong Tianyou manufactures TBM/Shield cutting tools and accessories (disc/roller cutters, scraper cutters, shield tail-seal brushes, picks) for shield machines, TBMs and pipe-jacking machines. They supply tungsten-carbide-faced cutters, tailor-made sizes/OEM drawings, and export globally.

PRODUCTS: Disc Cutter, Scraper, Tailskin Brushes, Picks.
